# Subject Index of Volume 63

Acidic aqueous solution
flash photolysis of di-$\mu$-thio-bis(oxomolybdate(V)) complexes in acidic aqueous solutions, 149
Adsorption
distribution of pyrene molecules adsorbed on porous materials studied by time-resolved fluorescence measurements, 91
Alumina
photochemistry on surfaces. Photochemical behavior of 1,3-diphenylisobenzofuran over alumina, 119
Antenna effect
studies of the antenna effect in polymer molecules
22. Photochemical dechlorination of polychorinated biphenyls in aqueous solutions of poly(sodium styrenesulfonate-co-2-vinylnaphthalene), 357
Anthracene
photophysics of substituted anthracenes used as chemiluminescence activators, 59
Anthryl group
solvent and solubility effects on exciplex emission of polymer-bound anthryl group and *p*-*N*,*N*-dimethylaminotoluene, 45

Benzene
IR emissions from UV excitation of benzene and methyl derivatives, 139
Benzophenone
on the photoreduction of crystal violet, phenosafranine and methylene blue by benzophenone, 217
Benzylchlorocarbene
kinetics of intramolecular and intermolecular reactions of benzylchlorocarbene, 115
2,2′-bipyridine
fluorescence behaviour of 2,2-bipyridine in aqueous solution, 179
Bis[3-hydroxylamino)-3-methyl-2-butanone-oximato-(2-)-*N*,*N*′]nickel
photochemistry of bis[3-(hydroxylamino)-3-methyl-2-butanone-oximato-(2-)-*N*,*N*′]nickel in $CCl_4$-containing solutions, 289
2-Butene
No($^4$II)-catalysed geometric isomerizations of the 2-butenes, 131

1,8-Cineole
photo-oxygenation of 1,8-cineole by molecular oxygen catalysed by $(Bu_4N)_4W_{10}O_{32}$, 173
Carbon
photochemical behaviour of ion pairs of the type $\{[Cr(en)_3]^{3+}; [M(CN)_6]^{4-}\}$ (M ≡ Fe, Ru, Os) as a first example of second-sphere photoeffects of chromium(III) amine complexes, 15
quantum yield of photolysis of perfluoroacetyl fluoride vapour possible source of $CF_3$ radicals, 1
Carbon tetrachloride
photochemistry of bis[3-(hydroxylamino)-3-methyl-2-butanone-oximato-(2-)-*N*,*N*′] nickel in $CCl_4$-containing solutions, 289
Carbon–halogen bond cleavage
photochemistry of 2-halo-1-tetralones. The effect of metal(II) salts and solid supports on the nature of carbon–halogen bond cleavage, 303
Carcinogenic effect
potential carcinogenic effect of Uvinul DS49 — a common UV absorber used in cosmetics, 241
Catalysis
catalysis of hydrogen photogeneration from electron-donor ions in aqueous medium by the iodide ion, 161
Cation radical mechanism
photosensitized cis-trans isomerization of stilbene via cation radical mechanism in micellar solution, 201
Chemiluminescence activators
photophysics of substituted anthracenes used as chemiluminescence activators, 59

Chiral hexahelicene–amine system
exciplex and ion pair quenching in a chiral hexahelicene–amine system, 337
Chromium
photochemical behaviour of ion pairs of the type $\{[Cr(en)_3]^{3+}; [M(CN)_6]^{4-}\}$ (M ≡ Fe, Ru, Os) as a first example of second-sphere photoeffects of chromium(III) amine complexes, 15
Cis–trans isomerization
photosensitized cis–trans isomerization of stilbene via cation radical mechanism in micellar solution, 201
Concentration quenching
triplet lifetime and concentration quenching of methylbenzenes in solution, 195
Cosmetics
potential carcinogenic effect of Uvinul DS49 – a common UV absorber used in cosmetics, 241
Crystal violet
on the photoreduction of crystal violet, phenosafranine and methylene blue by benzophenone, 217
Cyclobutane
radical ions and photochemical charge transfer phenomena
Part 23. Cyclobutane and cyclopropane ring opening reaction by photo-induced electron transfer – a new ring expansion method, 249
Cyclopropane
radical ions and photochemical charge transfer phenomena
Part 23. Cyclobutane and cyclopropane ring opening reactions by photo-induced electron transfer – a new ring expansion method, 249

Decomposition
decomposition process of the photochromic compound spiro[1,3,3-trimethylindoline-6′-hydroxy benzopyran] in the solid state under UV irradiation, 227
Di-μ-thio-bis(oxo-molybdate(V))
flash photolysis of di-μ-thio-bis(oxo-molybdate(V)) complexes in acidic aqueous solution, 149
Dichlorodimethylsilane
photoinduced graft copolymerization of dichlorodimethylsilane onto ethyl cellulose in homogeneous media, 75
*p*-*N*,*N*-dimethylaminotoluene
solvent and solubility effects on exciplex emission of polymer-bound anthryl group and *p*-*N*,*N*-dimethylaminotoluene, 45
4-(2-*p*-dimethylaminophenyl ethynil)-6,6-dimethyl-3-cyano-5,6-dihydro-2(1H)-pyridone
laser pulse photolysis study of the reaction of the intermediate platinum-(III) complex $PtCl_5^{2-}$ and 4-(2-*p*-dimethylaminophenyl ethynil)-6,6-dimethyl-3-cyano-5,6-dihydro-2(1H)-pyridone, 7
1,3-diphenylisobenzofuran
photochemistry on surfaces. Photochemical behavior of 1,3-diphenylisobenzofuran over alumina, 119
Dye molecules
isosbestic points and vibrational levels in electronically excited states of dye molecule, 211

Electron-donor ions
catalysis of hydrogen photogeneration from electron-donor ions in aqueous medium by the iodide ion, 161
Electronically excited states
isosbestic points and vibrational levels in electronically excited states of dye molecules, 211
Endoperoxides
wavelength dependent photocycloreversion of the endoperoxides of 1,2,3,4-tetramethylanthracene and 1,2,3,4-tetramethyl-9,10-diphenylanthracene, 319
Ethyl cellulose
photoinduced graft copolymerization of dichlorodimethylsilane onto ethyl cellulose in homogeneous media, 75
Exciplex emission
solvent and solubility effects on exciplex emission of polymer-bound anthryl group and *p*-*N*,*N*-dimethylaminotoluene, 45
Exciplex quenching
exciplex and ion pair quenching in a chiral hexahelicene–amine system, 337

Flash photolysis
flash photolysis of di-μ-thio-bis(oxo-molybdate(V)) complexes in acidic aqueous solutions, 149

Fluorescence
fluorescence behaviour of 2,2′-bipyridine in aqueous solution, 179
Fluorine
quantum yield of photolysis of perfluoroacetyl fluoride vapour possible source of $CF_3$ radicals, 1
Free cytosine base
computer simulation of the uracil hydrate mechanism for the photochemically induced deamination of free cytosine base in aqueous solution, 349

Geometric isomerization
$NO(^4\Pi)$-catalysed geometric isomerizations of the 2-butenes, 131

2-Halo-1-tetralones
photochemistry of 2-halo-1-tetralones. The effect of metal(II) salts and solid supports on the nature of carbon–halogen bond cleavage, 303
Hydrogen photogeneration
catalysis of hydrogen photogeneration from electron-donor ions in aqueous medium by the iodide ion, 161

Intermolecular reactions
kinetics of intramolecular and intermolecular reactions of benzylchlorocarbene, 115
Intramolecular reactions
kinetics of intramolecular and intermolecular reactions of benzylchlorocarbene, 115
Iodide ion
catalysis of hydrogen photogeneration from electron-donor ions in aqueous medium by the iodide ion, 161
Ion pairs
exciplex and ion pair quenching in a chiral hexahelicene–amine system, 337
photochemical behaviour of ion pairs of the type $\{[Cr(en)_3]^{3+}; [M(CN)_6]^{4-}\}$ ($M \equiv Fe, Ru, Os$) as a first example of second-sphere photoeffects of chromium(III) amine complexes, 15
IR emission
IR emissions from UV excitation of benzene and methyl derivatives, 139

Isosbestic points
isosbestic points and vibrational levels in electronically excited states of dye molecules, 211

Kinetics
kinetics and mechanism of the photochromic transformations of *N*-salicylidene-4-hydroxy-3,5-dimethylaniline and its complex with uranium(VI) dioxide, 25
kinetics of intramolecular and intermolecular reaction of benzylchlorocarbene, 115
study of kinetic processes in the excimer laser flash photolysis of $TiCl_4$, 257

Laser flash photolysis
laser flash photolysis of *trans-n*-styrylquinoxaline, 311
study of kinetic processes in the excimer laser flash photolysis of $TiCl_4$, 257
Laser pulse photolysis
laser pulse photolysis study of the reaction of the intermediate platinum(III) complex $PtCl_5^{2-}$ and 4-(2-*p*-dimethylaminophenyl ethynil)-6,6-dimethyl-3-cyano-5,6-dihydro-2(1H)-pyridone, 7

Metal(II) salts
photochemistry of 2-halo-1-tetralones. The effect of metal(II) salts and solid supports on the nature of carbon–halogen bond cleavage, 303
Methyl derivatives
IR emissions from UV excitation of benzene and methyl derivatives, 139
Methyl vinyl ketone
photocatalytic degradation of wastewater pollutants: titanium dioxide-mediated oxidation of methyl vinyl ketone, 107
Methylbenzene
triplet lifetime and concentration quenching of methylbenzenes in solution, 195
Methylene blue
on the photoreduction of crystal violet, phenosafranine and methylene blue by benzophenone, 217
Micellar solution
photosensitized cis–trans isomerization of stilbene via cation radical mechanism in micellar solution, 201

Molecular oxygen
photo-oxygenation of 1,8-cineole by molecular oxygen catalysed by $(Bu_4N)_4W_{10}O_{32}$, 173

Naphthacene
photochemistry of naphthacene in solution, 327
Nitrogen
photochemical behaviour of ion pairs of the type $\{[Cr(en)_3]^{3+}; [M(CN)_6]^{4-}\}$ (M ≡ Fe, Ru, Os) as a first example of second-sphere photoeffects of chromium(III) amine complexes, 15

Opto-acoustic spectroscopy
references for laser-induced opto-acoustic spectroscopy using UV excitation, 265
Organic compounds
photo-oxidation of organic compounds in the presence of titanium dioxide: determination of the efficiency, 99

Perfluoroacetyl fluoride
quantum yield of photolysis of perfluoroacetyl fluoride vapour possible source of $CF_3$ radicals, 1
Phenosafranine
on the photoreduction of crystal violet, phenosafranine and methylene blue by benzophenone, 217
Photoactivity
decrease of the photoactivity of $TiO_2$ pigment on doping with transition metals, 367
Photocatalytic degradation
photocatalytic degradation of wastewater pollutants: titanium dioxide-mediated oxidation of methyl vinyl ketone, 107
Photochemical dechlorination
studies of the antenna effect in polymer molecules
22. Photochemical dechlorination of polychlorinated biphenyls in aqueous solutions of poly(sodium styrenesulfonate-co-2-vinylnaphthalene), 357
Photochemically induced deamination
computer simulation of the uracil hydrate mechanism for the photochemically induced deamination of free cytosine base in aqueous solution, 349

Photochromic transformations
kinetics and mechanism of the photochromic transformations of *N*-salicylidene-4-hydroxy-3,5-dimethylaniline and its complex with uranium(VI) dioxide, 25
Photochromism
decomposition process of the photochromic compound spiro[1,3,3-trimethylindoline-6′-hydroxy benzopyran] in the solid state under UV irradiation, 227
mechanism of a photochromic reaction of (*E*)-α-(1,2,4,5-tetramethyl-3-pyrryl)-ethylidene(isopropylidene)succinic anhydride, 235
Photocycloreversion
wavelength-dependent photocycloreversion of the endoperoxides of 1,2,3,4-tetramethylanthracene and 1,2,3,4-tetramethyl-9,10-diphenylanthracene, 319
Photoinduced electron transfer
radical ions and photochemical charge transfer phenomena
Part 23. Cyclobutane and cyclopropane ring opening reactions by photoinduced electron transfer — a new ring expansion method, 249
time-resolved luminescence studies of a ruthenium(II) complex on porous glass. Pore size dependence of photoinduced electron transfer, 87
Photoinduced graft copolymerization
photoinduced graft copolymerization of bichlorodimethylsilane onto ethyl cellulose in homogeneous media, 75
Photoinitiated graft copolymerization
photo-oxidation of poly(vinyl alcohol) by uranyl ion: a route to photoinitiated graft copolymerization, 67
Photolysis
quantum yield of photolysis of perfluoroacetyl fluoride vapour possible source of $CF_3$ radicals, 1
Photo-oxidation
photo-oxidation of organic compounds in the presence of titanium dioxide: determination of the efficiency, 99
photo-oxidation of poly(vinyl alcohol) by uranyl ion: a route to photoinitiated graft copolymerization, 67

Photo-oxygenation
photo-oxygenation of 1,8-cineole by molecular oxygen catalysed by $(Bu_4N)_4W_{10}O_{32}$, 173
Photophysical behaviour
photophysical behaviour of polydimethylsilylene-bearing pyrenyl groups, 33
Photophysical processes
study of photophysical processes in *N*-(2-pyridine)carbazole, 187
Photoreduction
on the photoreduction of crystal violet, phenosafranine and methylene blue by benzophenone, 217
Photosensitization
photosensitized cis–trans isomerization of stilbene via cation radical mechanism in micellar solution, 201
Platinum
laser pulse photolysis study of the reaction of the intermediate platinum(III) complex $PtCl_5^{2-}$ and 4-(2-*p*-dimethylaminophenyl ethynil)-6,6-dimethyl-3-cyano-5,6-dihydro-2(1H)-pyridone, 7
Polychlorinated biphenyls
studies of the antenna effect in polymer molecules
22. Photochemical dechlorination of polychlorinated biphenyls in aqueous solutions of poly(sodium styrene sulfonate-co-2-vinylnaphthalene), 357
Polydimethylsilylene
photophysical behaviour of polydimethylsilylene-bearing pyrenyl groups, 33
Polymers
studies of the antenna effect in polymer molecules
22. Photochemical dechlorination of polychlorinated biphenyls in aqueous solutions, 357
Poly(sodium styrene sulfonate-co-2-vinylnaphthalene)
studies of the antenna effect in polymer molecules
22. Photochemical dechlorination of polychlorinated biphenyls in aqueous solutions of poly(sodium styrene sulfonate-co-2-vinylnaphthalene), 357
Poly(vinyl alcohol)
photo-oxidation of poly(vinyl alcohol) by uranyl ion: a route to photoinitiated graft copolymerization, 67
Pyrene
distribution of pyrene molecules adsorbed on porous materials studied by time-resolved fluorescence measurements, 91
Pyrenyl groups
photophysical behaviour of polydimethylsilylene-bearing pyrenyl groups, 33
*N*-(2-pyridine)carbazole
study of photophysical processes in *N*-(2-pyridine)carbazole, 187

Quantum yield
quantum yield of photolysis of perfluoroacetyl fluoride vapour possible source of $CF_3$ radicals, 1

Ring expansion
radical ions and photochemical charge transfer phenomena
Part 23. Cyclobutane and cyclopropane ring opening reactions by photoinduced electron transfer — a new ring expansion method, 249
Ruthenium(II) complex
time-resolved luminescence studies of a ruthenium(II) complex on porous glass. Pore size dependence of photoinduced electron transfer, 87

*N*-Salicylidene-4-hydroxy-3,5-dimethylaniline
kinetics and mechanism of the photochromic transformations of *N*-salicylidene-4-hydroxy-3,5-dimethylaniline and its complex with uranium(VI) dioxide, 25
Second-sphere photoeffects
photochemical behaviour of ion pairs of the type $\{[Cr(en)_3]^{3+}; [M(CN)_6]^{4-}\}$ (M ≡ Fe, Ru, Os) as a first example of second-sphere photoeffects of chromium(III) amine complexes, 15
Singlet dioxygen
yields of singlet dioxygen produced by the reaction between the excited state of tris(bipyridine)ruthenium(II) and triplet dioxygen in various solvents, 167
Solid supports
photochemistry of 2-halo-1-tetralones. The effect of metal(II) salts and solid supports on the nature of carbon–halogen bond cleavage, 303
Solubility effects
solvent and solubility effects on exciplex emission of polymer-bound anthryl

group and *p*-*N*,*N*-dimethylaminotoluene, 45
Solvent effects
solvent and solubility effects on exciplex emission of polymer-bound anthryl group and *p*-*N*,*N*-dimethylaminotoluene, 45
Solvents
yields of singlet dioxygen produced by the reaction between the excited state of tris(bipyridine)ruthenium(II) and triplet dioxygen in various solvents, 167
Spiro[1,3,3-trimethylindolene-6′-hydroxy benzopyran]
decomposition process of the photochromic compound spiro[1,3,3-trimethylindoline-6′-hydroxy benzopyran] in the solid state under UV irradiation, 227
Stilbene
photosensitized cis–trans isomerization of stilbene via cation radical mechanism in micellar solution, 201

1,2,3,4-Tetramethylanthracene
wavelength dependent photocycloreversion of the endoperoxides of 1,2,3,4-tetramethylanthracene and 1,2,3,4-tetramethyl-9,10-diphenylanthracene, 319
(*E*)-α-(1,2,4,5-tetramethyl-3-pyrryl)-ethylidene(isopropylidene)succinic anhydride
mechanism of a photochromic reaction of (*E*)-α-(1,2,4,5-tetramethyl-3-pyrryl)-ethylidene(isopropylidene)succinic anhydride, 235
1,2,3,4,-Tetramethyl-9,10-diphenylanthracene
wavelength dependent photocycloreversion of the endoperoxides of 1,2,3,4-tetramethylanthracene and 1,2,3,4-tetramethyl-9,10-diphenylanthracene, 319
*Trans-n*-styrylquinoxaline
laser flash photolysis of *trans-n*-styrylquinoxaline, 311
Time-resolved fluorescence
distribution of pyrene molecules adsorbed on porous materials studied by time-resolved fluorescence measurements, 91
on the identifiability and distinguishability of first-order reaction systems by time-resolved fluorescence spectroscopy, 279
Time-resolved luminescence
time-resolved luminescence studies of a ruthenium(II) complex on porous glass. Pore size dependence of photoinduced electron transfer, 87
Titanium dioxide
decrease of the photoactivity of $TiO_2$ pigment on doping with transition metals, 367
photocatalytic degradation of wastewater pollutants: titanium dioxide-mediated oxidation of methyl vinyl ketone, 107
photo-oxidation of organic compounds in the presence of titanium dioxides: determination of the efficiency, 99
Titanium tetrachloride
study of kinetic processes in the excimer laser flash photolysis of $TiCl_4$, 257
Transition metals
decrease of the photoactivity of $TiO_2$ pigment on doping with transition metals, 367
Triplet dioxygen
yields of singlet dioxygen produced by the reaction between the excited state of tris(bipyridine)ruthenium(II) and triplet dioxygen in various solvents, 167
Triplet lifetime
triplet lifetime and concentration quenching of methylbenzenes in solution, 195
Tris(bipyridine)ruthenium(II)
yields of singlet dioxygen produced by the reaction between the excited state of tris(bipyridine)ruthenium(II) and triplet dioxygen in various solvents, 167

Uracil hydrate
computer simulation of the uracil hydrate mechanism for the photochemically induced deamination of free cytosine base in aqueous solution, 349
Uranium(VI) dioxide
kinetics and mechanism of the photochromic transformations of *N*-salicylidene-4-hydroxy-3,5-dimethylaniline and its complex with uranium(VI) dioxide, 25

Uranyl ion
photo-oxidation of poly(vinyl alcohol) by uranyl ion: a route to photoinitiated graft copolymerization, 67
UV absorber
potential carcinogenic effect of Uvinul DS49 – a common UV absorber used in cosmetics, 241
UV excitation
IR emissions from UV excitation of benzene and methyl derivatives, 139
references for laser-induced opto-acoustic spectroscopy using UV excitation, 257
UV irradiation
decomposition process of the photochromic compound spiro[1,3,3-trimethylindoline-6′-hydroxy benzopyran] in the solid state under UV irradiation, 227
Uvinul DS49
potential carcinogenic effect of Uvinul DS49 – a common UV absorber used in cosmetics, 241

Vibrational levels
isosbestic points and vibrational levels in electronically excited states of dye molecules, 211

Waste-water pollutants
photocatalytic degradation of waste-water pollutants: titanium dioxide-mediated oxidation of methyl vinyl ketone, 107
